THIRTYPLUS™

SALES & PRODUCT INFORMATION

Moisture Sensor

The system utilises electrical conductivity between measuring discs either side of the bale chamber

Features

- **NON-INTEGRATED** – this system operates through a wired Bluetooth connection via smartphone or tablet (Apple/Android)
- Working range between **6 - 60%** humidity
- Accuracy **+/- 1%** < 35% humidity
- **5 measurements** per second
- Moisture is measured **through the outer 150mm of the bale as it forms** to achieve high levels of accuracy.
