SALES & PRODUCT INFORMATION

Wet Bale Paint Marker

The system utilises electrical conductivity star wheels moisture sensor, as either an upgrade to a moisture sensor or automatic application system

Features

- Integrates with star wheel moisture sensors
- Twin nozzles for various locating points
- Sprays at operators set humidity alarm
- 5.5 - 12 litre tank
- 10 containers of food grade colour supplied with unit

Benefits

- Extended working day = More bales
- Helps to prevent high humidity bales entering storage
- Allow bales to be separated by humidity level
- Reduces risk of self-combustion in storage
