

SALES & PRODUCT INFORMATION

February 2021

Ref:	V 1.5
Product Family:	Round Balers
Product Range:	3 Series

3 Series Automatic Application System with Precision Moisture Sensor

Roll-Belt 150/180	Roll Baler 125
PFC-347CX	PFC-347CFX

SALES & PRODUCT INFORMATION

Moisture Sensor

The system utilises electrical conductivity between measuring discs either side of the bale chamber

Features

- **NON-INTEGRATED** – this system operates through a wired connection via Apple iPad
- Working range between 8 - 60% humidity
- Accuracy +/- 1% < 35% humidity
- 5 measurements per second
- Moisture is measured through the outer 150mm of the bale as it forms to achieve levels of accuracy

high

Automatic Applicator

SALES & PRODUCT INFORMATION

Benefits – Moisture Sensor

- NO Calibration of moisture sensor when changing crops and bale density
- Extended working day = More bales
- Non-stop baling = More bales
- Moisture accuracy = High quality bales

Benefits – Automatic Applicator

- Extended working day = More bales
- Non-stop baling = More bales
- Use with CropSaver hay preservative = High quality bales
- Reduced
 - Tedding passes
 - Days to make quality hay
 - Hay spoilage (using CropSaver preservative)

Available Options

- Transfer pump
 - Safe filling of tank from ground level
